Progress/Issues since last report:

- **VACUHO** held a reorganization retreat and after an extensive review voted to restructure the leadership positions to include the election of a President Elect. This essentially means that running for president consists of a three year commitment to the organization. The group also has create Regional Ambassadors, and each ambassador will visit all institutions in their region annually to promote membership and involvement within VACUHO.

- Concerned that Spring 2004 issue of SEAHO Report has not yet materialized.
